Do you enjoy developing guidelines and procedures for plumbing and fire protection? We have the job for you!

MECHANICAL ENGINEER CONSULTANT ($70,396-$100,128/yr)
Serves as the Mechanical Engineer responsible for the technical development of mechanical design solutions and facility programs supporting the PA National Guard and Office of Veterans' Affairs. The employee is responsible for developing guidelines and procedures for plumbing and fire protection design, facility operations and maintenance plans, building commissioning, building management systems, and energy management to reduce operation and maintenance (O&M) costs, conserve water, and promote a desirable working environment.

Work Hours: 7:00 a.m. to 3:15 p.m., Monday through Friday
Location: Fort Indiantown Gap, Annville, PA

Minimum Experience and Training Requirements - Two years as a Mechanical Engineer 2; OR four years of professional mechanical engineering experience which required work on any structural mechanical system

Necessary Special Requirement - Possession of a Professional Engineer License issued by the Pennsylvania State Registration Board for Professional Engineers, Land Surveyors and Geologists

*This job requires possession of a valid driver's license

We offer competitive salary and complete state benefits package including comprehensive family health insurance; dental, vision, and hearing aid benefits; life insurance coverage; excellent leave package; and a generous retirement plan.
