- On motion made by Marc Ferraro, the Board approved the Minutes dated 17 June 2020.

## Environmental Update – John Fronko

- **Issue/Event:** External Environmental Performance Assessment System (EPAS) inspections.

**Background:** Every three years NGB conducts an external EPAS audits on a percentage of PAARNG facilities to identify environmental compliance issues that require correction.

**Next Step:** EPAS audit is rescheduled March 8-12, 2021. BEM will be completing pre-audit visits in the preceding months to ready them for inspection.

- **Issue/Event:** Perfluoro-octane Sulfonate (PFOS) or fire-fighting foam study.

**Background:** The NGB has contracted for studies (testing) for the levels of PFOS at ARNG facilities across the country that have had PFOS releases over the years. Governor Wolf has established a PFOS Action Team to address the issue within the State. BG Regan is the DMVA representative. The EPA drinking water action level for PFOS is 70 ppt (parts-per-trillion). FTIG: PFOS was historically used. Field work (soil and ground water sampling) was conducted the summer of 2019. The final report has been received, sent to DEP, identifying two sites: one around the airfield and the other by the fire station where further site investigation will be conducted in the future.

**Next Step:** New sampling of drinking water wells for PFOS was conducted the summer of 2020 at FTIG, New Milford and Williamstown. All results were below the EPA drinking water action levels.

- **Issue/Event:** Spotted Lanternfly (SLF) in Pennsylvania.

**Background:** The SLF is native to Asia, came to Berks county PA in a shipment of landscaping stone from China five years ago. It is considered an invasive pest and impacts crops and trees. The Governor has quarantined 13 counties in PA and has asked all agencies and citizens to act to control these pests.

Please report any SLF sightings to the Invertebrate Section on the second floor of 26-151. Phone# is 2949. You can also email MV, DMVA-BADBUG ([RA-MVMV001@pa.gov](mailto:RA-MVMV001@pa.gov)) with sighting information.

**Next Step:** SLF is increasing in numbers and range. Management (spraying/trapping) and survey work continued this summer at FTIG and at Readiness Centers in the impacted counties. DMVA received another grant (\$100k) from the PA Department of Agricultural to address SLF at DMVA facilities.

TAG asked about mitigation plans for the future and how these nests with surrounding areas. Mr. Fronko responded that we are doing what we can do but if surrounding communities don't it will impact what we see at FTIG regardless of our mitigation efforts.

**Background:** DMVA – OFE is working to acquire a 26-acre tract (approx..) with an existing USAR maintenance repair facility in New Castle PA to eventually replace the existing FMS and RC in the area. The Phase I ESA, Phase II ESA and appraisal have been completed. The commonwealth has offered to purchase the property for \$890,000 and the offer was accepted by the owner. The Agreement of sale was fully executed on 10/19/2020; DMVA has 120 days (Until approx. 02/19/2021) to complete any due diligence inspections.

**Next Step:** Mr. Ferraro plans to have the existing lease agreement with the USAR terminated and replaced with a sharing MOA that delegates the various rights and fiscal responsibilities at the site. The sit is to have an ASC of SCS in PRIDE (100% fed) and DMVA will receive sustainment. Need to work out the logistics and details of how and when the agreement is to be terminated with USACE, USAR and DGS.

Mr Ferraro stated he is still waiting on a decision from the USAR. If they don't agree to cost sharing than the lease will be implemented and the USAR will continue to pay for use of the facility.

**Background:** The 12.66-acre wooded parcel with a 1388 sq.ft. single family dwelling was acquired using federal ACUB funding; However the Ward Burton Wildlife Foundation have presented the offer to donate the property to the Commonwealth of PA. They have forwarded a request for legal guidance/instructions/evaluation to the attorneys at NGB but have not received any feedback. Mr. Weisnicht has forwarded a copy of the federal law that his ACUB partners feel addresses some of their concerns. DMVA Chief Counsel has completed and forwarded a memo that lays out the specific land acquisition authority for the commonwealth so that it can be provided to NGB for them to determine its adequacy. Tom Inge responded that the commonwealth would still be needed to have another separate entity “hold” the easement.

**Next Step:** NGB legal council is reviewing the memo that states the commonwealth's acquisition authority to determine its acceptability under the provisions of the ACUB program.

- **Issue/Event:** Acquisition of the Cramer FTIG inholding properties for acquisition.

**Background:** DMVA – OFE is working to acquire two adjacent parcels totaling 21.34-acres; one with an existing single-family residence, the other is vacant timberland. The original total appraised value of \$530,00 was agreed upon financially; however the sellers are currently having their attorney review the other terms of the draft legal sales agreement and have not executed.

**Next Step:** Once the AOS is fully executed, the commonwealth will have 120 days to execute any due-diligence items that we deem necessary and appropriate (survey/Phase I ESA). Settlement will then take place within 90 days from completion or waiver of due diligence items.

Income derived from this sale will be returned to the PA general fund; however, DMVA – OVA will be reimbursed for the expenses relating to preparing these parcels for sale.
