ENHANCED VETERANS REIMBURSEMENT (EVR)
WWW.VETERANSHOMES.PA.GOV
The Pennsylvania Department of Military and Veterans Affairs administers the Enhanced Veterans’ Reimbursement (EVR) program in each of its six veterans’ homes.

The EVR program enables the federal government to match a percentage of funds toward your nursing home costs if you’re an eligible Skilled Nursing Care resident. Residents are not required to pay any additional fees to become eligible for this program. However, residents on EVR are subject to the Pennsylvania Department of Human Services (DHS) Estate Recovery Program.

**WHO BENEFITS FROM THIS?**

The EVR program affects residents in the Skilled Nursing and Memory Care Units who meet the eligibility requirements.

**HOW DO YOU KNOW IF YOU ARE ELIGIBLE?**

Those residents with a total income below the approved threshold are eligible for EVR. The threshold is based on criteria set forth by DHS. The Revenue Office at each of the PA Veterans’ Homes will submit the application to DHS.

**I QUALIFY—NOW WHAT?**

Applicants will work with the Facility Reimbursement Officer. They are standing by at each PA Veterans’ Home to answer any question you may have. They will assist you by completing all required documentation.

**WILL MY CARE BE AFFECTED?**

No changes in your care will result from your participation in EVR. EVR will not impact the medical services you are currently receiving.

**HOW DOES THIS BENEFIT ME?**

EVR will contribute toward medical services that are not included in the standard nursing home care package. At a PA Veterans’ Home you will benefit by having a higher personal needs allowance than what is available outside veterans’ home residency.
